Not Everyone has problems with hang over pain and headache. But if you do the PERSONAL HANGOVER PATCH IS FOR YOU. Pain can be reduced AND energy with an up-beat "state of mind" happens with one simple application.

Pain and loss of energy is caused by blockages in the meridians caused by the body's natural reaction to different causes.

Have developed a distinctive and proprietary method of programming multi-layered holographic discs, we call Personal Patches™ with Invisi-Tech,™ an exclusive patent-pending technology that adhesively binds sound vibrations & frequency waves into the holograms for the purpose of influencing the hang-over pain & energy cycle.

Once applied, the body's energy field triggers the release of these vibrations stored in the HANGOVER PATCH Personal Patch and affects the causes of pain. The vibration transfer applied to HANGOVER PATCH Personal Patches is non-transdermal, non-invasive and therefore, nothing enters into the body thru the skin. The HANGOVER PATCH Personal Patch properly placed, can cause a remarkable decrease in pain with calming and sedating the bodies energy flow(s).

For over 5,000 years, traditional Chinese healing arts have developed various forms of promoting inner energy flow. The refined arts of acupuncture, acupuncture point massage (aka: Shiatsu, or Acupressure), Tai 'Chi, Qi Gong are all time-tested vehicles for inner energy promotion. Mapped out from ancient Chinese medical texts and named after different organs and body systems, the energy flow runs along body path ways called, "meridians."

A common example of energy flow can be equated to the movement of water through a garden hose. The water flows freely until a kink occurs in the hose. This reduces a strong flow to slow trickle. If we straighten the kink, the water flow is no longer blocked and its flow strength returns. This can be compared to the stimulating of an acupuncture point along a stagnant meridian. Point stimulus restores energy flow.

Place the HANGOVER PATCH over either the right temple, or both temples.
